IT PAYS! IT PAYS!

WHAT PAYS?

READ AND SEE.

Every business man admits the necessity of advertising. All who have tried it know the advantages and profit of so doing. But it is not all who advertise that do it advantageously, and in the most effective manner, to derive the greatest benefit for their money. As a rule, it is the best economy to advertise what one has to sell or wishes to purchase in papers having the largest circulation among that class of persons likely to be interested in the article. Parties having Manufacturing Establishments to sell or lease, or who wish Estimates made for Constructing Bridges, Dams, Iron Buildings, Furnaces, Heating Apparatus, Steam Engines, Boilers, Wood and Iron Working Machinery, Agricultural Implements, or Contracts for Engineering Works of all kinds, will find that it pays to advertise in the SCIENTIFIC AMERICAN.

The value of the SCIENTIFIC AMERICAN as an advertising medium cannot be over-estimated. It goes into all the machine and workshops in the country, and is taken at the principal libraries and reading rooms in the United States and Europe.

A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. If it is worth 25 cents per line to advertise in a paper of three thousand circulation, it is worth $3.75 per line to advertise in one of forty-five thousand.

We invite the attention of those who wish to make their business known to the annexed rates:

Back Page	**$1.00 a line**	EACH INSERTION.
Inside Page	**.75 a line**	
Business and Personal	**1.00 a line**	

Engravings may head advertisements at the same rate per line, by measurement, as the letter press. Advertisements must be received at the publication office as early as Friday morning to appear in next issue.

If anything is wanted in the mechanical line, advertise for it in the SCIENTIFIC AMERICAN.

If one has a patent or machinery to sell, advertise in the SCIENTIFIC AMERICAN.

Address the publishers,

MUNN & CO., 37 Park Row, New York.

THE BEST PAPER! TRY IT!!

THE Scientific American

Is the **cheapest** and **best** illustrated weekly paper published. Every number contains from 10 to 15 original engravings of new machinery, novel inventions, Bridges, Engineering works, Architecture, improved Farm Implements, and every new discovery in Chemistry. The **SCIENTIFIC AMERICAN** has been published **weekly, for 30 years,** and **stands foremost** of all industrial papers, and **has a larger circulation than any other paper of its kind in the world.** A year's numbers contain 832 pages and several hundred engravings. Thousands of volumes are preserved for binding and reference. The practical receipts are well worth ten times the subscription price. Terms, $3.20 a year by mail, including postage. May be had of all News Dealers.

PATENTS

AMERICAN & EUROPEAN.

Established, 1846.

MUNN & CO.,

Editors of the SCIENTIFIC AMERICAN,

Continue to give opinions in regard to the Novelty of Inventions, Free of Charge; Make Special Examinations at the Patent Office; Prepare Specifications, Drawings, Caveats, Assignments; and prosecute Applications for Letters Patent at Washington, and procure Patents in Canada and in all European Countries. They give special attention to the prosecution of Rejected cases, Appeals, Extensions and Interferences. A special notice is made in the **SCIENTIFIC AMERICAN** of all Inventions Patented through this Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice.

Send for Pamphlet, 110 pages, containing laws and full directions for obtaining Patents.

Address for the Paper or concerning Patents,

MUNN & CO., 37 Park Row, New York.

Branch Office, cor. F and 7th Sts., Washington, D. C.

ENGINEERS, CONTRACTORS, MACHINISTS AND MANUFACTURERS.

The publishers of the SCIENTIFIC AMERICAN are prepared to execute illustrations, in the best style of the engraver's art, *for this paper only*, of all civil and engineering enterprises, such as New Bridges, Docks, Furnaces, Rolling Mills, and all kinds of Manufacturing Works, including Wood and Iron Working Machines, Lathes, Shears, Steam Boilers, Engines, Pumps, Governors, Railroad Improvements, Agricultural Implements, Architectural Works, Conservatories, &c. Engravings may be made from good photographs or well-executed drawings, or artists will be sent to any part of the country to make the necessary sketches. The advantage to manufacturers and contractors of having their machines, inventions, or engineering works illustrated in a paper of such large circulation as the SCIENTIFIC AMERICAN, which not only extends to nearly every manufacturing establishment in this country and Canada, but has an extensive circulation abroad, is obvious.

GREENWICH POTTERY,

ESTABLISHED 1833.

Nos. 417, 419, 421, 423, 425, 427 & 429 W. 18th St.

WILLIAM SHUTE'S Ex't'x.,

MANUFACTURER OF

DRAIN AND SEWER PIPE,

Smoke, Hot-Air, and Ventilating Flues,

FIRE BRICK, CHIMNEY TOPS,

FIRE CEMENT.

A large and extensive stock of DRAIN PIPE of the very best quality, together with all the necessary Branches, Bends, Stench Traps, etc., constantly on hand.

This Pipe is peculiarly adapted and is extensively used for the Street Sewers of Cities and Towns, Drains from Houses, etc., as also for the conveyance of Water to Mills, Factories, Railroad Depots, and Aqueduct purposes generally.

It is perfectly indestructible, lasting for ages, and is superior to as well as much cheaper, than any other Pipe.

After an experience of thirty years, together with my improved machinery and facilities for manufacturing, the subscriber feels warranted in stating that he is enabled to offer a superior article, and on as reasonable terms as elsewhere.

Architects, Engineers, Plumbers, Builders, Contractors, House Owners, and others interested, are invited to call and examine for themselves.

I also continue to manufacture

SMOKE and HOT-AIR FLUES,

Peculiarly adapted to Public and Private Buildings, where a perfect Fire-Proof Flue or Conductor of Hot Air is a desideratum. It is infinitely superior to tin, and is afforded at about the same cost.

☞ Samples can be seen at the Pottery.—Circulars forwarded on application.

N. B.—DEALERS LIBERALLY DEALT WITH.

WILSON'S

Business Directory,

OF NEW YORK CITY.

VOLUME XXIX.

The names of all Persons, Firms, &c., engaged in any business in New York City, including **ALL THE PROFESSIONS,** are classified under their appropriate headings.

It contains matter equal to three 12mo volumes of 400 pages. Its convenient size adapts it for the pocket. Every business man, both in the city and country, should have it. To ladies shopping it is an invaluable companion.

☞ Free by mail to any part of the country, on receipt of price.

WILSON'S
STREET AND AVENUE DIRECTORY
OF THE
CITY OF NEW YORK.

Corrected May 1, 1876.

Entered according to act of Congress, in the Year 1876, by
THE TROW CITY DIRECTORY CO.,
In the Office of the Librarian of Congress at Washington.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 66 Allen is on the right-hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome, hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or, suppose you are going up Broadway, and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson Street is on the corner of Broome: hence by passing from Broadway, through Broome Street to Hudson, you are near to the desired number 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.
